

European Year of Cultural Heritage 2018 The Network "IMPRESSIONISMS ROUTES ©" officially candidate

The initiative proposed by Germany and supported by France was the subject of a decision of the European Parliament and the Commission on May 17, 2017 ... The European Year of Cultural Heritage 2018 aims to allow the development of heritage in France and in Europe and to strengthen the links between the European Union and the citizens by recognizing and highlighting their heritage activities ...

The "Impressionisms Routes ©" project is perfectly in line with the objectives of the European Year of Heritage 2018. Impressionism is a unifying and unanimously appreciated theme both in Europe and in the rest of the world. It is the very symbol of freedom of expression, it is emblematic of our shared culture. Impressionism is likely to promote the sharing of European cultural values through the development of responsible and intellectually enriching tourism ... It is particularly well suited to educational exchanges for young and less young. It is a source of outdoor activities and events facilitating access to culture. The Impressionists and European landscape painters have been tremendous revelators of the richness of Europe's landscape heritage; **the 'Impressionisms Routes ©' network** intends to make this heritage known to better preserve it.
